

**Why choose CK Technology Group as your *preferred* IT contractor? The answer is as easy as 1..., 2..., 3...!**

- 1) CK Technology Group uses its own employees more than 95% of the time, and tries at all costs to avoid using contractors. Quality Control is our number 1 priority. Quality control on the jobsite can only come with proper training, and we ensure our staff is properly trained and is kept up to the latest technology trends.
- 2) CK Technology Group maintains industry standard certifications that span the vast IT spectrum. Ranging from structured cabling and testing certifications to advanced network and server certifications, the team at CK Technology Group is well versed in all facets of Information Technology.
- 3) One-stop IT shop: CK Technology Group, LLC leverages the use of our many industry-leading partners to provide a complete solution, from implementation throughout the life-cycle of your infrastructure.

Call us today at **(888) 494-3848** or **(212) 355-1900** and we'll immediately setup an appointment for a 100% free, no obligation IT assessment (which in itself, will provide immeasurable value to your business). If you're shy, shoot us an email at [sales@cktechnology.com](mailto:sales@cktechnology.com).
